

Frying pan

621110

Made of durable aluminium, suitable for all heat sources. Aluminium excels at conducting heat, the pan is quickly ready for use. Stainless steel handle with insulating silicon handle for a good grip. The 'Teflon™ Platinum Plus' non-stick coating has a high temperature resistance (up to 260°C). The coating is applied in three layers which increases the wear resistance and makes the pan ideal for intensive use. Very easy to clean after use.
