6-Burner (10 kW each) gas Boiling Top

# **Short Form Specification**

### Item No.

To be installed on open base installations, bridging supports or cantilever systems. High efficiency flower flame burners with continuous power regulation and optimized combustion. Flame failure device as standard on burners to protect against accidental extinguishing. Exterior panels of unit in stainless steel with Scotch Brite finish. Pan supports in heavy duty cast iron. Extra strength work top in heavy duty 2 mm stainless steel. Rightangled side edges to allow flush-fitting junction between units.

### **Main Features**

- Unit to be mounted on open base cupboards, bridging supports or cantilever systems.
- The six 10 kW high efficiency burners are available in 100 mm diameter with continuous power regulation from 2.2 kW to 10 kW.
- Gas appliance supplied for use with natural or LPG gas, conversion jets supplied as standard.
- Large sized pan support in cast iron (stainless steel as option) with long center fins to allow the use of the largest down to the smallest pans.
- Burners with optimized combustion.
- Flame failure device on each burner protects against gas leakage when accidental extinguishing of the flame occurs.
- Protected pilot light.
- The special design of the control knob system guarantees against water infiltration.
- IPX5 water protection.
- Control knobs provide smooth, continuous rotation from min to max power level.
- Suitable for countertop installation.

### Construction

- Unit is 930 mm deep to give a larger working surface area.
- All exterior panels in Stainless Steel with Scotch Brite finishing.
- AISI 304 stainless steel worktop, 2mm thick.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
