

Olive wood serving board

505410

Made of oiled olive wood, very hard and dense. It can have natural cracks due to the properties of wood which are not defects. Olive wood has antibacterial properties, doesn't absorb odours nor stain and is resistant to acids and fats. Not dishwasher safe – recommended handwashing with a gentle detergent, then drying with a cotton or microfibre cloth. To prevent cracking, once in a while apply olive oil or sunflower seed oil. Disclaimer: every item made of olive wood is unique, has different grain pattern, shades and shape – may vary from the picture.

Made of a single piece of wood. Ideal for serving snacks, such as cold cuts, cheese, olives, canapés, fruit. One side with perimeter gutter to prevent liquids spilling on the worktop.
