STILLA TABLE

CONTEMPORARY COLLECTION

Design Jonas Bohlin 2013

STILLA is a modern table with a light and flexible design.

STILLA is made in powder coated steel with wheels in one end, partly welded and partly mounted with screws, for maximum stability and flexibility.
Table top in solid 25mm ash, treated with hardwax oil or stain.

STILLA is always standing steady on the ground, and thanks to the clever design, always easy to move around.

STILLA was originally designed with the meeting room in mind, but is just as suitable suitable for the private home and restaurant.

STILLA is offered in several differens sizes, with possibility of bespoke versions for projects.

Swedish handcraft made to customer order in 8 weeks.
