

# Operating and Safety Instructions

## Product description

The Nuki Keypad gives you the option of operating other Nuki actuators such as the Nuki Smart Lock, the Nuki Opener or the Nuki Box by entering a code. The device is battery-operated and connects to the actuator via Bluetooth.

## Proper use

Only use the Nuki Keypad in conjunction with one of the Nuki actuators as a Bluetooth remote to control the actuator functions.

Operating temperature: -20 – +70° C, maximum humidity 95%, non-condensing.

Any other use is deemed improper and shall result in an exclusion of warranty and liability.

Suitable for CR2032 batteries (lithium coin cells, 2 pieces).

## Assembly and installation

[Installation guide](#)

## Safety instructions

The following safety and hazard instructions not only serve to protect the device, they also prevent personal injury. Please read through the instructions carefully.

The Nuki Keypad may fail due to technical malfunctions and thus be unable to open the door. Always carry the key to the lock with you or leave it in an accessible place so that the door can be opened manually in the event of an error.

Improper use of the device might result in damage. Do not expose the device to extreme heat or cold, direct sunlight, open flames or other extreme conditions.

Do not short-circuit the batteries! Do not throw the batteries into an open fire. Danger of explosion!

This product and its packaging materials contain small parts which children might swallow; therefore, store it away from children younger than 36 months of age. This product is not a toy. Leaking or damaged batteries might cause chemical burns.

## Instructions

- Read these instructions carefully
- Keep these instructions
- Heed all warnings
- Install strictly in accordance with installation instructions
- Refer all servicing to qualified personnel of Nuki Home Solutions. Maintenance is required if the Nuki Keypad has been damaged in any way, e.g. if it does not function normally or if it has been dropped.

## Disposal

Do not dispose of the device with the household rubbish! Electronic devices must be disposed of at local collection stations, in accordance with the guidelines on used electric and electronic devices.

Batteries may not be disposed off with the household rubbish! Dispose of batteries at your local battery collection point!

## Technical data

- Model name: Nuki Keypad
- Article type: 030.118
- Standards: Bluetooth specification 5.0, 2.4GHz ISM band
- Antenna: internal RF ceramic chip antenna
- Frequency range: 2402 MHz – 2480 MHz
- Power supply: 6V (2x CR2032 lithium coin cell)
- Dimensions: LxWxH 90mm x 30mm x 15mm
- Weight: 30g
- IP Rating: IP54 (splash-proof)
- Enclosure Type 3

Country of Origin: Romania

## Regulatory Information EU

Nuki Home Solutions GmbH hereby declares that the radio equipment type Nuki Keypad (Article Type: 030.118) complies with the Directive 2014/53/EU.
