FINISHED

Steel/aluminium:

Daily exposure to intense ultraviolet radiation from sunlight will deteriorate the metal finish over time.

Use a furniture cover of good quality to extend the life of your furniture.

During winter time, the best is to store in a dry and well-ventilated place.

Wash your furniture with a mix of mild soap and water, rinse off and dry thoroughly.

Apply a fine, clear automobile wax for maximum protection against harmful ultraviolet exposure and salty air.

Do not use corrosive chemicals when cleaning

Acacia:

Daily exposure to intense ultraviolet radiation from sunlight will deteriorate the wood material over time.

Use a furniture cover of good quality to extend the life of your furniture.

During winter time, the best is to store in a dry and well-ventilated place.

Clean with damp, soft cloth and soap that does not contain detergents.

Good to know:

Sun exposure and weather conditions affect all outdoor materials over time, and color changes are a natural part of the product's aging process. To avoid visible color differences, surfaces should be exposed evenly, especially on tables with extension leaves or where parts of the surface are covered for extended periods.
