Steel/aluminium:

Daily exposure to intense ultraviolet radiation from sunlight will deteriorate the metal finish over time.
Use a furniture cover of good quality to extend the life of your furniture.
During winter time, the best is to store in a dry and well-ventilated place.
Wash your furniture with a mix of mild soap and water, rinse off and dry thorouglhy.
Apply a fine, clear automobile wax for maximum protection against harmful ultravoilet exposure and salty air.
Do not use corrosive chemicals when cleaning

Plastic rattan:

Daily exposure to intense ultraviolet radiation from sunlight will deteriorate the rattan material over time.
Use a furniture cover of good quality to extend the life of your furniture.
During winter time, the best is to store in a dry and well-ventilated place.
Wash your furniture with a mix of mild soap and water, rinse off and let it dry thorouglhy.

Acacia:

Daily exposure to intense ultraviolet radiation from sunlight will deteriorate the wood material over time.
Use a furniture cover of good quality to extend the life of your furniture.
During winter time, the best is to store in a dry and well-ventilated place.
Clean with damp, soft cloth and soap that does not contain detergents.

Good to know:Sun exposure and weather conditions affect all outdoor materials over time, and color changes are a natural part of the product's aging process. To avoid visible color differences, surfaces should be exposed evenly, especially on tables with extension leaves or where parts of the surface are covered for extended periods.

Hanging Umbrella:

Important information: Always close the umbrella in windy conditions and when it is not in use. For optimal stability, we recommend securing the umbrella base to a solid surface with screws and using four base weights/weight plates. This helps reduce the risk of damage caused by wind and adverse weather conditions.

Pole Umbrella:

Important information: Always close the umbrella in windy conditions and when it is not in use.
This helps reduce the risk ofdamage caused by wind and adverse weather conditions.
